Manufacturer's Certification Statement

Pertaining to the Federal Tax Credits for Consumer Energy Efficiency of 2010

Quantum Harvest, LLC certifies that our solar panels and solar generators are designed primarily as battery charging units and are eligible units to qualify for the federal tax credit for existing homes under the Federal Tax Credits for Consumer Energy Efficiency of 2010. This certification relates to the credit for solar panels (photovoltaic systems)* whereby photovoltaic systems must provide electricity for the residence, and must meet applicable fire and electrical code requirements. Tax credits are available at 30% of the cost, with no upper limit, through 2016 (for existing homes & new construction). PV systems must provide electricity for the residence, and must meet applicable fire and electrical code requirements.

* Solar system components are eligible only if they are used and installed with eligible solar panels and/or wind generators
